

PROJECT DESIGN PHASE 1

PROPOSED SOLUTION

DATE	02 Nov 2023
TEAM ID	2DE609BEACAAFDA93DC492429FF2BCB3
PROJECT NAME	Pizza Delivery App

PROPOSED SOLUTION:

The proposed solution for our pizza delivery app aims to create a seamless and enjoyable experience for both customers and delivery personnel. For customers, we're focusing on enhancing the user interface with a user-friendly menu and customization options. Real-time order tracking and transparent pricing will offer convenience, and secure payment methods will ensure peace of mind. Regular promotions and a feedback mechanism will make ordering pizza an even more rewarding experience. Additionally, the introduction of contactless delivery options emphasizes safety in today's environment.
